Friday **from 8:30h to 14:00h.**

Bachillerato:
Monday to Friday: **from 8:30am to 2:00pm.**

The SEI group consists of eight private, mixed, and lay schools. In our schools, we educate and train our students from 0 years of age until their incorporation into university, through the different levels of Early Childhood Education, Primary Education, ESO, and Baccalaureate.

At SEI La Merced School, we offer a personalized and comprehensive quality education that attends to diversity and individual needs. We work to bring out the best in our students, focusing on their well-being.

Our school has two classes per course, which allows us to offer less crowded teaching with a close and trusting approach. We develop autonomy, creativity, good development of social skills, a love for learning, languages, and new technologies in our students

We promote entrepreneurship and teamwork and encourage attitudes of solidarity, care for our environment, and respect. We expand our schedule, which helps us offer our students more hours of English. We have our own P.I.A program, including more than 5 weekly hours of English language in our curriculum.

We consider the acquisition of the English language worked with active methodologies and through significant contexts that help them communicate and form themselves for the future, allowing for the integral development of our students.

OUR METHODOLOGY

Personalized attention.

We work on an education focused on the needs of each student, offering a close relationship with families, making them part of the day-to-day life of the school and the learning of their children.

Learning to learn English.

We provide students with the necessary tools to create their own learning path. We encourage their love of learning, accompanying them throughout their academic life from 0 years old to university.

We promote their autonomy and creativity.

We work on social skills.

We encourage an interest in languages.

Through our English project (P.I.A.), we aim to help our students learn the English language through contexts that are close to them, which help them put what they learn in the classroom into practice. They learn through active dynamics, working on all language skills: listening, speaking, reading, and writing. Additionally, we prepare our students for official Cambridge exams.

We teach responsible use of technology.

In our educational offer, we have the subject of Technology and Digital Resources, which is taught in the technology classroom using digital devices. We are aware of the increasing use of technology in the daily lives of students and work to instill responsible use of it.

We promote entrepreneurship.

We promote teamwork and encourage a sense of solidarity, caring for our environment, and respect for the entire educational community.

OUR METHODOLOGY

COOPERATIVE LEARNING

Through cooperative learning, we teach our students to work in teams, giving them the opportunity to be the protagonists of their own learning process.

They construct their own knowledge by acquiring skills and social competencies that are essential for their future.

➡ Cooperative learning contributes to cognitive development, improving decision-making, verbal comprehension and expression, and promoting critical thinking skills.

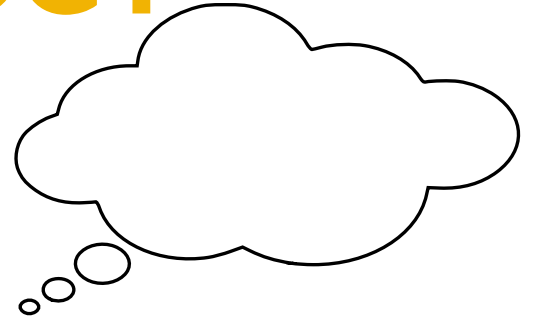

➡ It also promotes interaction among students, enhancing communication and improving social skills. Strong emotional bonds are created, helping to develop empathy, resulting in positive attitudes and behaviors for coexistence in the classroom.

➡ Additionally, cooperative learning increases motivation for learning.

OUR METHODOLOGY

RUTINAS DE PENSAMIENTO **THINKING ROUTINES**

We work to bring out the best in our students, giving them the opportunity to develop capabilities and skills that will allow them to face challenges and situations successfully, preparing them for the adults they will become tomorrow.

It helps organize thinking through steps, rules, or diagrams. This allows students to make their thinking visible.

Students are aware of their learning process, which helps them regulate, organize, and analyze it.

It fosters an entrepreneurial spirit and develops social and civic competencies.

OUR METHODOLOGY

EDUCACIÓN EMOCIONAL **EMOTIONAL EDUCATION**

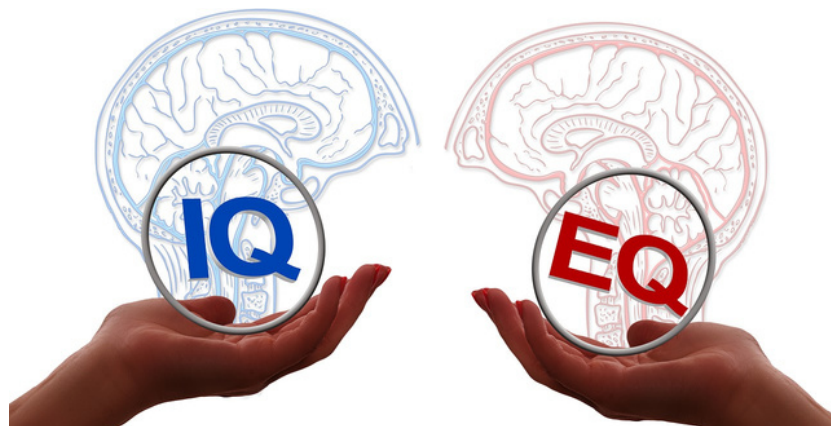

Through emotional education, we help children's personal development, promoting emotional intelligence, social relationships, and overall well-being.

It fosters in students their personal and social abilities.

It improves self-esteem, autonomy, communication, empathy, and self-control.

Our ultimate goal is the integral development of the student, both at the cognitive and emotional levels.

OUR OWN ENGLISH PROGRAMME

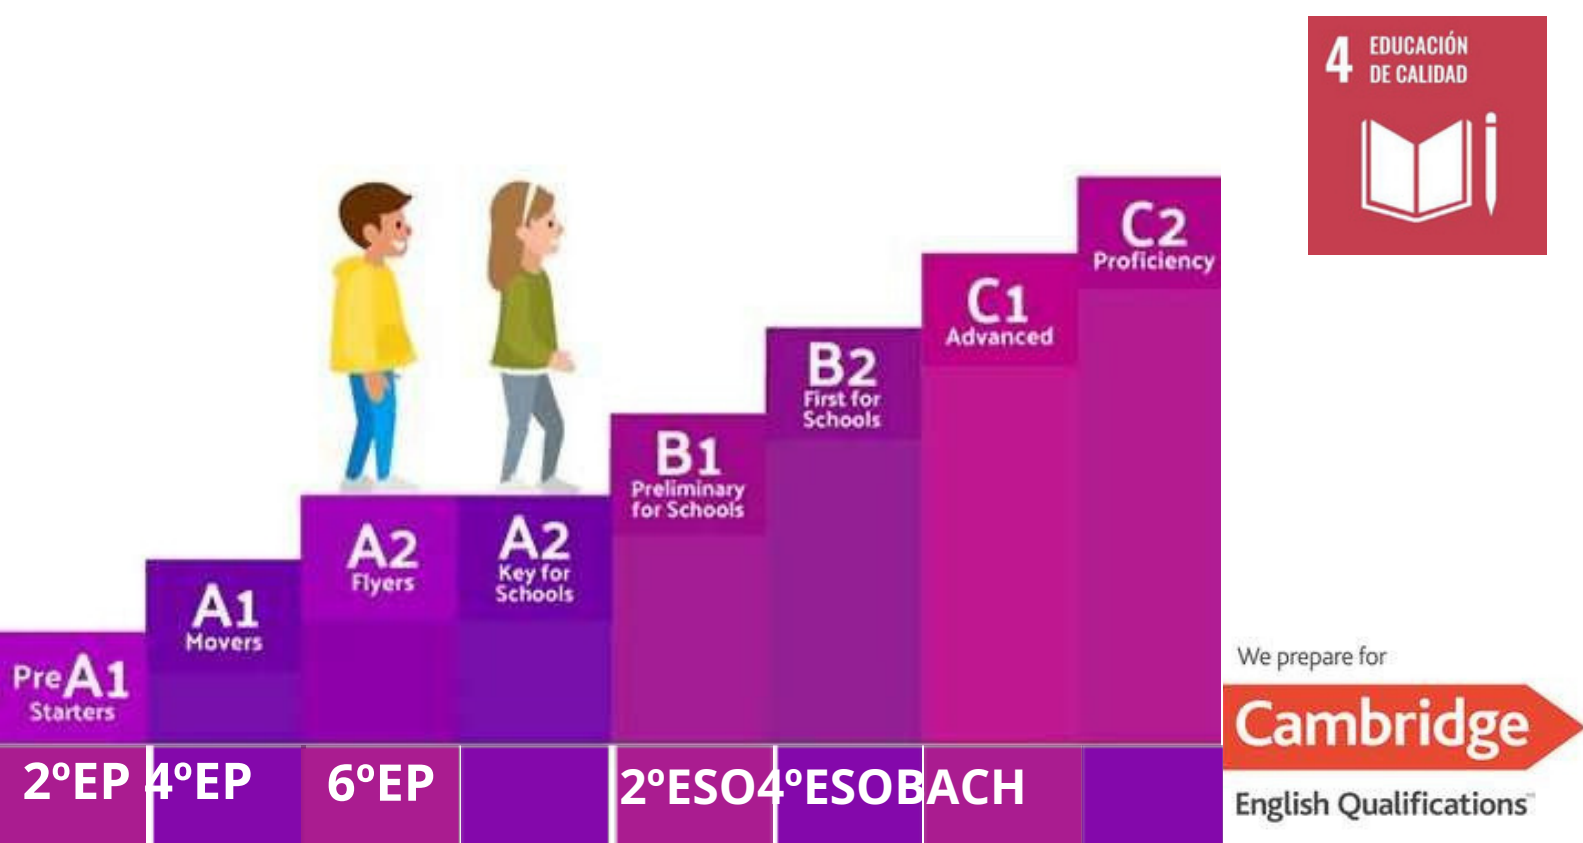

ENGLISH- P.I.A

Through our English project (P.I.A.), we aim to offer our students the opportunity to learn the English language through real and close contexts without losing contents from the Spanish curriculum, seeking the highest quality in our educational system.

Our bilingual and native professionals teach dynamic and active classes in small groups to enjoy the English language, adapting to the age and needs of each stage. We give our students the opportunity to immerse themselves not only in the language but also in its culture and celebrations.

We prepare our students from early childhood education to high school for the official Cambridge exams, which they can take at the center itself as we are an exam center.

EXPANDING EDUCATION Primary School

We offer a series of activities/workshops that complement our students' education, achieving a comprehensive development.

We have some of them on Primary school:

MATH CHALLENGES

Improvement of reasoning and ability to solve a mathematical situation related to reality.

CREATIVE WRITING

Expression improving.

ESOL

Preparing for Cambridge exams.

NATIVE SPEAKERS

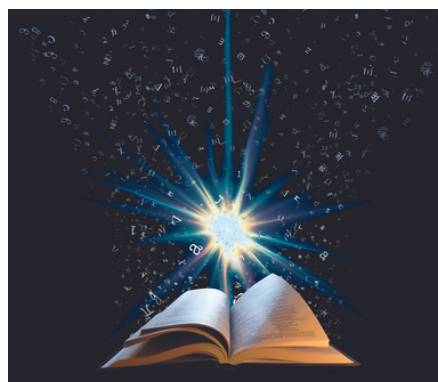

Improving skills with native speakers.

THEATRE

Prepare and perform our own plays.

AUDIOVISUALS

We enjoy learning english watching movies.

EXTRACURRICULAR ACTIVITIES

English

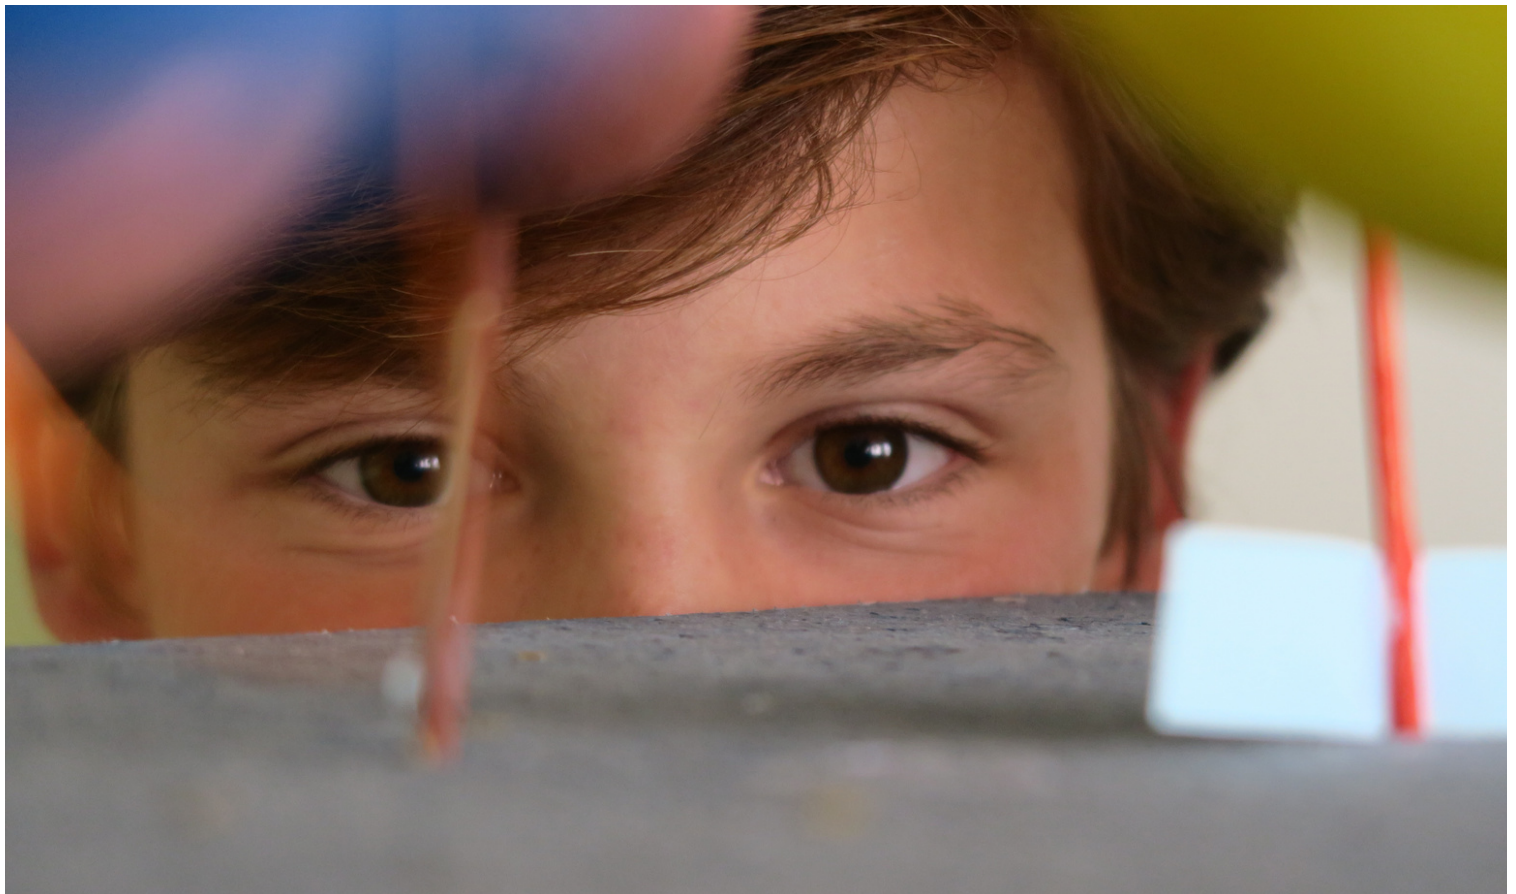

Robotics

Basketball

Performing Arts

Judo

Rhythmic Gymnastics

INTEGRAL DEVELOPMENT

ENGLISH ACADEMY

Classes taught by native teachers.

Reduced capacity groups.

**Program adapted to prepare for the ESOL Exams
from the University of Cambridge.**

Possibility to take official exams at the center.

Personalised teaching adapted to each level.

EXTRACURRICULAR ACTIVITIES

INTEGRAL DEVELOPMENT

BASKETBALL

Movistar Estudiantes

Practicing sports helps us to follow rules and create habits.

It promotes socialization and improves their skills to relate to others.
It increases their motor skills.

It promotes their physical development, with the growth of their bones and muscles.

It keeps them away from a sedentary lifestyle, reducing the time they spend on television and video games.

It helps them stay healthy.

INTEGRAL DEVELOPMENT

JUDO

Supervised activity by the National Master and White-Red Belt
6th Dan of Judo, Fco. Javier Linger.

WHAT DOES JUDO BRING US?

Recognize effort as a value.

Increase responsibility.

Reduce anxiety.

Improve self-esteem.

Increase concentration.

Accept rules and improve tolerance to frustration.

INTEGRAL DEVELOPEMENT

GYMNASTICS

It teaches us the skill of having mental control to overcome limits.

It helps us focus and concentrate.

It strengthens muscles and improves cardiovascular health.

It works on strength, flexibility, and balance.

It helps to eliminate stress.

OUR SERVICES IN THE SCHOOL

Extended hours (morning and afternoon)

Open from 7:30am with breakfast, the center offers daycare service and extended hours until 6:30pm with an afternoon snack.

Canteen

Own kitchen
organized by stages
with caretakers in the
center.

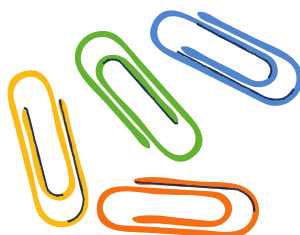

Psychopedagogical Department

Detection of possible learning difficulties, guidance and monitoring of students and their families, coordination and support alongside teachers within the framework of tutorial action.

Secretary's Office

Book, supplies and uniform sales service.

WE ARE FOCUSED ON

AGENDA 2030

The 2030 Agenda sets 17 Sustainable Development Goals (SDGs) to be achieved by 2030.

These goals aim to achieve equality among people, protect the planet, and ensure prosperity. A new global social contract that leaves no one behind.

OBJETIVOS  **DE DESARROLLO SOSTENIBLE**

Agenda 2030

WE ARE SOLIDARY.

Through different activities and initiatives, such as food drives, charity runs, and donations to associations, we encourage our students to have a helpful and caring attitude towards those who need it most while also working on values such as empathy, care for others, and teamwork.

menudos corazones
FUNDACIÓN DE AYUDA A LOS NIÑOS
Y SU PARTICIPACIÓN EN LA COMUNIDAD

Agenda 2030

TAKING CARE

We work on and take care of the relationships among all members of our educational community. We form a big family where we all take care of each other.

Through workshops and tutorial sessions, we work with our students to promote respect for diversity.

Everyone is different, everyone is equal.

With our participation in the "Fruit and Milk Program", we promote healthy habits.

ACTIVITIES

SEI GROUP

OLYMPIC GAMES

Through sports and cultural activities, SEI group students and families have the opportunity to get to know each other and share a fun day. We promote values such as respect and teamwork among our students.

SEI SPELLING BEE

The SEI Spelling Bee contest is an experience that develops the academic, social, and emotional skills of our students.

→ We promote our students' English language learning through a dynamic and educational contest oriented towards spelling excellence and the expansion of their vocabulary.

→ We stimulate work and healthy competition with other students.

→ We develop self-confidence and self-esteem.

SKIING TRIP

Our 6th grade primary and high school students have the opportunity to learn one of the most complete sports and enjoy an unforgettable experience with their classmates.

END OF YEAR

GALICIA

for pupils on 6th grade Primary School and 4th ESO grade.

BACHILLERATO

around Europe.

COMMUNICATION

Through the digital platform Alexia, we maintain daily communication with families, providing information such as:

- Daily assignments
- Exam dates and assignment due dates
- Absence records
- Exam grades
- Schedule parent-teacher conferences
- Information about field trips and activities
- Authorization forms.

Alexia 

Google for Education allows us to interact with our students in a dynamic way, which enables us to offer personalized education.
